Purpose

The purpose of this Backup Policy is to establish guidelines and procedures for the regular and secure backup of critical data at our Company. This policy aims to ensure the availability, integrity, and recoverability of data in the event of data loss, system failures, or unforeseen disasters.

Scope

This policy applies to all employees, contractors, and third-party vendors who have access to and are responsible for managing critical data within the stock brokerage firm.

Policy Guidelines

Data Classification

- Data will be classified based on its sensitivity and importance to the business.
- Backup strategies will be aligned with the classification of data.

Backup Frequency

- Critical data will be backed up regularly, with the frequency determined by the data's criticality and change rate.
- Full system backups will be performed periodically.

Backup Storage

- Backup data will be stored in secure, offsite locations to protect against on-site disasters.
- Multiple copies of backup data will be maintained to ensure redundancy.

Retention Period

- Backup retention periods will be established based on regulatory requirements, business needs, and data classification.
- Old backups will be periodically reviewed and purged in compliance with retention policies.

Encryption

- Backup data, both in transit and at rest, will be encrypted using industry-standard encryption algorithms.
- Encryption keys will be securely managed.

Testing and Verification

- Regular tests and verifications of backup and restore procedures will be conducted to ensure data recoverability.
- Testing will include both full and incremental backups.

Documentation

- Comprehensive documentation of backup procedures, schedules, and restoration processes will be maintained.
- Employees responsible for backup procedures will be adequately trained.
